TS-EN-ISO-9001

CALCIUM OCTOATE (EGEDRY 135151)

PRODUCT DATA

Properties :

Soluble in organic solvent and oils. Calcium is an auxiliary drier and used both in combination with lead. Can be used as a good wetting agent as well as reduces loss of dry.

Physical and chemical properties :

	(Typical values)
Appearance	Clear liquid
Ca Metal (%)	5
Solvent	White spirit
Total solids (%)	31
Density (gr/cm ³)	0.871

Various grades with different metal content and solvents can be manufactured upon customer's demand.

Application fields are :

Improves drying characteristics at low temperature and high humidity. Toy finishes.

Packaging :

In steel drums.

Expiry data :

One year from production date.

APPLICATION :

Common usage levels are from 0.05 to 0.2 % metal on vehicle solids.

SAFETY DATA

Hazard Identification :

R 10 : flammable

Handling and Storage :

Handling : Provide for sufficient ventilation at the working place. Keep sources of ignition at a distance. Take measures against the build-up of electrostatic charges. Do not smoke.

Storage : Keep the container tightly closed in a well ventilated place and away from sources of ignition. Do not store together with peroxides.

Transport Information :

Land transport : ADR

Class : 3,31°C Item : 1993
Label : 3 Hazard Identification No: 30

Sea transport : IMO

Class : 3,3 UN No: 1993 Flammable liquids, N.O.S.
IMDG page : 3345 Packing Group : III
EMS : 3-07 MFAG : 310
Marine Pollutant : Yes (contains white spirit)

Rev. T. / No: 30.12.2004/000
